

# **HINO PARTS** **CATALOGUE** **2<sup>nd</sup> Edition**

[www.sactrucks.co.za](http://www.sactrucks.co.za)

**SAC Commercial Parts** supplies affordable, quality replacement parts for all leading European and Asian heavy and medium commercial vehicles as well as aftermarket parts and accessories for trailers, buses, transporters and light commercial vehicles.

SAC is a ONE-STOP-SHOP and therefore our product portfolio further includes a comprehensive selection of Lubricants and Automotive Fluids of unparalleled quality. For the convenience of our customers we also import a superior range of OEM authorised 12-Volt maintenance-free batteries ideally suited to keep up with the increased energy demands of the electronics-loaded vehicles of today.

Quality, compatibility and availability of products are paramount to our procurement decision-making process and nowhere is this more evident than with the range of parts and components as contained here within. Should you require additional information contact your nearest branch or visit [www.sactrucks.co.za](http://www.sactrucks.co.za) to enquire. Prices are available on request, Ts and Cs apply.

## 2<sup>nd</sup> Edition

**POWERING  
PERFORMANCE**

Eurol's products are widely used and tested in the professional motorsport circuit, including the Dakar Rally, the world's largest and toughest rally event.

The Toyota GAZOO Racing Team, the winners of the 2023, 2022 and 2019 Dakar Rally, relies on Eurol's Specialty Products to get them over the finish line. To quote Glyn Hall, Toyota GAZOO Racing Team Manager: "The importance of lubrication is crucial in the world's toughest rally and Eurol has made a proven contribution to our success".

The testing done and data gathered during the Dakar Rally is used for the further development of the Eurol products we use in everyday life. You can have the fullest confidence in Eurol's "Dakar-proven" quality and reliability.

# LUBRICANTS

## ENGINE OIL

### ENGINE OIL DIESEL GUARD MINERAL 15W40

Robust mineral engine oil especially suitable for mixed fleet applications with petrol, LPG and lightly loaded diesel engines, whether or not turbo charged and/or with catalytic converter. This quality amply fulfils the strict norms regarding deposits on piston crowns, in top piston ring grooves and on the rest of the pistons.

E100112-1L  
E100112-5L  
E100112-20LBL  
E100112-60L  
E100112-210L

### ENGINE OIL ACTENCE FULL SYNTHETIC 5W30

E100058-1L  
E100058-5L  
E100058-20LZIL

Fully synthetic engine oil developed for petrol and diesel engines equipped with catalytic converters, as well as turbo charged engines and direct fuel injection systems. This oil offers extremely high protection over prolonged drain intervals. Especially recommended for vehicles where ACEA C4 is prescribed to prevent soot filters from getting blocked. Eurol Actence provides a rapid and stable lubricating film at the cold-start and a high thermal stability under heavy-duty operating conditions.

### ENGINE OIL SUPER LITE FULL SYNTHETIC 5W40

Fully synthetic engine oil for petrol and diesel engines, with or without turbo, passenger cars and light commercial vehicles. Also for cars equipped with catalytic converters and direct fuel injection systems. It provides an extremely quick and stable lubricating film at the cold start and offers high thermal stability under heavy duty operating conditions. It offers good wear protection and protects against rust and corrosion, while special additives keep all parts free from deposits.

# LUBRICANTS

## ENGINE OIL FLUENCE DXS FULLY SYNTH 5W30

E100076-5L

E100076-20L

Fully synthetic engine oil developed for Renault petrol and diesel engines equipped with catalytic converters, turbo charged engines and for direct fuel injection systems. It offers an extremely high protection over prolonged drain intervals. Especially recommended for cars where ACEA C4 is prescribed, to prevent soot filters from blocking. Actence provides a rapid and stable lubricating film at the cold start and a high thermal stability under heavy duty operating conditions.

## ENGINE OIL ENDURANCE LD SEMI SYNTHETIC 10W40

Semi-synthetic UHPD engine oil enabling long drain intervals in commercial vehicles such as trucks, buses and industrial vehicles. This oil provides an excellent protection against bore polishing and has a superior oxidation and high temperature stability. It increases fuel economy due to excellent additive technology which keep both the oil and the engine clean in an unprecedented way during prolonged drain intervals.

E100117-5L

E100117-20L

E100117-210L

## ENGINE OIL GEO-MAX SA FULL SYNTHETIC 15W40

E100167-5L

E100167-20LZIL

Eurol Geo-Max SA 15W40 is a premium low ash engine oil for naturally aspirated and turbocharged four-stroke diesel and gasoline engines operating under heavy service in a wide range of climatic conditions, delivering API CK-4 performance. Eurol Geo-Max SA 15W-40 is fully backwards compatible with API CJ-4, API CI-4+, CI-4 and previous

# LUBRICANTS

## ENGINE OIL FULL SYNT 10W40 GEO-MAX MOTOR OIL

E100121-20L

A fully synthetic engine oil suitable for modern trucks with radically reduced sulphur, phosphorus and sulphated ash concentrations used to protect the exhaust gas after-treatment systems. Geo-Max 10W-40 can also be used in engines without a diesel particulate filter (DPF), such as older trucks with Euro-3 engines, where ACEA E4, Mercedes 228.5, DAF HP-2 and MAN 3277 are prescribed, as well with Renault RXD when diesel with a low sulfur content is used.

## ENGINE OIL TRACTOR ALTRACK 15W40 STOU

This Altrack series is a range of universal, multi-grade tractor oils (Super Tractor Oil Universal) and is especially developed for application in the engine, transmission and hydraulic systems. This range can be used all year round in tractors equipped with oil-immersed disc brakes (wet brakes). It offers perfect protection against corrosion, oxidation and wear under extremely high loads.

E105084-20L

## COMPRESSOR OIL ASHLESS MINERAL ISO 46

E118871-20L

An ashless mineral compressor oil with a low pour point, anti-wear characteristics and excellent oxidation stability, offering reliable performance of the compressor under all conditions. The compressor is protected against corrosion and the oil provides a clean performance, prevents carbon deposits and has low friction characteristics. This product, with its high thermal stability, has a maximum final stage temperature of 220 °C for centrifugal, piston, rotary screw and sliding vane compressors.

## GEARBOX OIL

### GEARBOX OIL HPZ ZM SYNTHETIC 75W80

E110071-5L

E110071-20LZIL

E110071-60L

E110071-210L

Synthetic 75W80 transmission oil for longer drain intervals. It is suitable for use in both gearboxes and differentials with or without an interarder or retarder, requiring an API GL-4 gear oil. Due to its low pour point shifting at low temperature is made easier, whereas the high viscosity index ensures proper lubrication at high temperature. Its fuel saving properties coupled with meeting the latest specifications for synchromesh rings allow for longer drain intervals.

# LUBRICANTS

## GEARBOX OIL TRANSYN GL 4/5 SYNTHETIC 75W90

A synthetic transmission/gear oil which can be applied in both manual gearboxes and in final drives where an API GL-4 or -5 quality oil is prescribed. This product significantly reduces the need to stock multiple transmission oils since it can be used for the complete drive line. The special additives will also reduce overall fuel consumption. This oil can be used in synchromesh gearboxes and ensures easy and smooth shifting. It has all the characteristics of an oil that can cope with the extreme pressure levels generated by heavy loads and intense vibrations.

E110075-1L

E110075-5L

E110075-20LZIL

E110075-210L

## GEARBOX OIL HPG 80W90 TDL GL5

E110630-1L

E110630-5L

E110630-20LZIL

E110630-60L

Performance Gear Oils are mineral gear oils, formulated according to the latest phosphor/sulfur technology, assuring an excellent protection against metal-to-metal contact of the gears under the most severe operating conditions, even under shock loads. The SAE 80W and 85W viscosity grades have excellent low temperature fluidity for an optimum performance during all seasons. Recommended for use in hypoid gears, hub reductions, gearboxes, PTOs and differentials where an API GL-5 is prescribed.

## GEARBOX OIL HPG 80W90 TDL GL4/5

A mineral transmission oil that can be used in the drive line of cars, buses and trucks, where an API GL-4 or GL-5 specification is prescribed. It offers excellent stability and high protection levels to gears and synchronizers along the entire drive line. The variety of lubricants one needs to stock is thus thereby reduced. The product has good oxidation stability at high temperatures and offers a perfect solution for a mixed fleet as it can be used during summer and winter months (starting from -25 °C).

E110627-5L

# LUBRICANTS

## GEARBOX OIL FULTRASYN 75W90 GL4/5

A synthetic transmission/gear oil which can be applied in both manual gearboxes and in final drives, where an API GL-4 or -5 quality oil is prescribed. This product can reduce the stock of transmission oils, since it can be used for the complete drive line. The special additives help reducing fuel consumption. It can be used in synchromesh gearboxes and ensures easy and smooth shifting, showing excellent extreme pressure characteristics to cope with heavy loads and vibrations.

E110076-5L

## GEARBOX OIL MINERAL HPG EP SAE 85W90 GL5

E110635-20L

E110635-5L

Eurol HPG 85W-90 is a mineral gear oil, formulated according to the latest phosphor-sulphur technology. This specialized additive technology guarantees excellent protection against metal-to-metal contact of the gears under the most severe operating conditions, even under shock loads. Eurol HPG 85W-90 contains special additives which deposits a protective oil film for optimum corrosion protection. Eurol HPG 85W-90 has proven itself to have excellent oxidation and thermal stability. Seals are not affected by this product. Eurol HPG 85W-90 is recommended for use in hypoid gears, hub reductions, gearboxes, PTOs and differentials where an API GL-5, MIL-L 2105-D and Mack GO-G are recommended. Eurol HPG 85W-90 can also be applied where MB 235.0 is prescribed.

## GEARBOX OIL HPG 80W90 GL5 LSD

Eurol HP Gear Oil LSD is an API GL-5 gear oil with special 'limited slip' inhibitors for hypoid drives and limited slip differentials. The additives in Eurol HP Gear Oil LSD offers optimum protection under heavy-duty operating conditions and heavy shock loads. Its special anti-friction characteristics effectively prevents squeaking and/or vibrations. Moreover, the product's excellent fluidity at low temperatures ensures optimum performance during all seasons. Eurol HP Gear Oil LSD protects against oxidation and ageing; note that seals are not affected by this product. Eurol HP Gear Oil LSD is recommended for hypoid drives, hub reductions, (transfer) gearboxes, PTOs and differentials where an API GL-5 and/or Mil-L-2105-D specs are prescribed. Eurol however advises the use of HPG LSD 2000p for tractors and other off-road applications.

E110634-5L

# LUBRICANTS

## TORQUE FLUID/GEARBOX OIL POWERSHIFT 50 TO -4

Powershift is a high-performance drive line oil, developed for modern demanding 'off-road' applications, as well as for final drives of equipment requiring a CAT TO-4 or Allison C4 specification. The oils are recommended for use in powershift transmissions, manual or automatic transmissions, final drives, hydraulic systems and 'wet brakes' in buses and trucks requiring an Allison C4 specification. It can also be used for earthmoving equipment, agricultural applications and mining industry.

E101367-20LZIL

## ATF

### ATF III G SYNTHETIC

A synthetic automatic transmission fluid, especially developed for new (after 1997) and older (automatic) transmissions. It is also suitable for power steering systems, a number of hydraulic systems and for rotary air compressors where an excellent low temperature fluidity is required. An 'electronically controlled converter clutch (ECCC) test' and a 'sprag wear test' were added to IIIF to upgrade the DEXRON III to meet the latest demands.

E113665-1L

E113665-5L

E113665-20LZIL

### GEARBOX OIL ATF 1100 FULL SYNTHETIC

E113661-1L

E113661-5L

E113661-20LZIL

A fully synthetic automatic transmission oil, which is developed for American, Japanese and Korean automatic gearboxes. It is also suitable for most European automatic gearboxes. This 'multi-vehicle' oil is a unique combination of synthetic base oils and state-of-the-art additives, which guarantees all-round, easy shifting. Special friction modifiers ensure that the friction characteristics will not change, even after a long time. It effortlessly meets the drain intervals prescribed by the OEM.

# LUBRICANTS

## DIFFERENTIAL OIL

### DIFF OIL SUPER PREMIUM MINERAL SAE 30

E101170-5L

Eurol Super Premium SAE 30 is a straight mineral motor oil, especially developed for gasoline and diesel engines operating under favorable working conditions.

### DIFF OIL HPG EP MINERAL 85W140 GL5

The Multi-Purpose Gear Oil series is formulated from paraffinic base stocks and additives, including EP (Extreme Pressure) additives according to the phosphor/sulfur technology. It is recommended for many types of manual gearboxes and final drives in passenger cars, buses and commercial vehicles and for which an API GL-4 transmission oil is prescribed. A smooth shifting is guaranteed for a long time. Furthermore, the SAE 80W and 80W-90 viscosity grades have an excellent low temperature fluidity.

E110640-1L

E110640-5L

E110640-20LZIL

## HYDRAULIC FLUID

### HYDRAULIC OIL HYKROL HLP ISO 68 MINERAL

Hykrol HLP 'anti-wear' oils are especially developed for application in all kinds of hydraulic systems. These oils reduce pump wear to a minimum and contribute to a long equipment lifetime. It is suitable for the lubrication of vacuum pumps and moderately loaded gearboxes, protecting against wear, corrosion and rust formation. It also has excellent water demulsifying properties.

## HYDRAULIC OIL TRACTOR ALTRACK MULTI 10W30

E105075-5L

E105075-20L

Eurol's Altrack series is a range of universal, multi-grade tractor oils especially developed for application in the engine as well as transmission and hydraulic systems. It can be used year-round in tractors equipped with oil immersed disc brakes (wet brakes) and offers ideal protection against corrosion, oxidation and wear under extremely high loads.

## HYDRAULIC OIL POWERSHIFT LSA 10W

Eurol Powershift LSA (Low Sulfated Ash) 10W is a high-performance drive line oil developed for modern, demanding "off-road" applications as well as for trucks requiring a Caterpillar TO-4 or Allison C-4 performance specification. It is blended from highly refined mineral base oils and a specially developed additive package which results in excellent friction and wear protection as well as oxidation stability. This Product is recommended for use in powershift and hydrostatic transmissions, manual gearboxes and automatic transmissions, differentials and final drives, hydraulic systems and 'wet brake' mechanisms. Applications: buses and trucks with Allison manual, power shift and automatic transmissions. Off-highway application: earthmoving equipment, agricultural applications and mining industry. (The OEM recommend viscosity grade should always be followed).

E101249-20L

## EUROL TRANSMISSION HYKROL JD 68 UTTO

E105820-5L

E105820-20L

The Hykrol UTTO series is especially developed for transmissions of combined bulldozer, tractor and other agricultural devices, fluid clutches, power steering, hydraulic systems and torque converters. It has favorable friction characteristics and is therefore exceptionally suited for 'wet brake' systems in so far as preventing so-called 'stick slip'. It has a high viscosity index, a very durable oil film and good EP- and anti-wearing properties, protecting against corrosion, oxidation and foam building.

# LUBRICANTS

## PENTOSIN OIL POWERSTEERING FLUID C

E113675-1L

Power steering Fluid type C is a fully synthetic hydraulic fluid, especially developed for hydraulic systems like levelling systems and power steering systems in tractors, passenger vehicles and commercial vehicles. Due to the high viscosity index and a very low pour point, the viscosity will barely change under varying temperatures. Because of the high boiling point and its water resistance, the product can be applied for a long-lasting and safe use when this type of fluid is prescribed.

## GREASE

Molybdenum Disulphide Grease is a multipurpose grease with MoS<sub>2</sub> for Constant-Velocity (homokinetic) joints. Also recommended for the lubrication of heavily loaded plain bearings, chassis lubrication points, earthmoving equipment and agricultural machinery. It is based on mineral base oils, lithium soap thickener and molybdenum disulphide. The latter forms a chemical layer on metal surfaces which reduces friction to a minimum. It has good mechanical stability, resulting in a long lifetime.

## EUROL MOLYBDENUM DISUPPHINE MoS<sub>2</sub> GREASE

E901070-400G

## DISH GREASE EP2 - 5TH WHEEL

E901475-20KG

E901475-50KG

Dish Grease EP 2 is formulated from high viscosity refined base oils. It is developed for lubricating points which are exposed to water. This grease surpasses the water-repellent and temperature properties of a typical calcium based grease and has the excellent mechanical stability of a lithium based grease. It has a good pumpability in grease guns and does not affect rubber materials. Dish Grease EP 2 is highly adhesive to metal surfaces and extremely suitable for dish lubrication of trucks.

# LUBRICANTS

## GREASE BALL BEARING EP2 600G

E901210-600G

Eurol Ball Bearing Grease with NLGI 2 consistency is especially developed for the lubrication of ball and roller bearings of motorcycles, mopeds and bicycles. It is water-repellent and offers a good resistance against oxidation. Moreover, the product has excellent sealing capabilities and good mechanical stability. As it is highly adhesive, the grease reduces bearing wear to a minimum and protects all parts from corrosion.

## EUROL GREASE BLUE STAR HIGH TEMP EP2

E901304-400G

E901304-15KG

E901304-20KG

Especially suited to wheel bearings and wheel hubs of trailers and caravans.

## EUROL LITHIUM GREASE EP 0

Heavy-duty central lubricating grease with good pumpability.

E901020-50KG

## BRAKE FLUID

## BRAKE FLUID DOT 4 FULL SYNTHETIC

E801400500ML

E801400-1L

Eurol Brake Fluid DOT 4 is a high-performance product, especially developed for hydraulic brake systems of passenger cars, commercial vehicles, mopeds, scooters, forklift trucks and motorcycles. It is suitable for both drum brake and disc brake systems; with and without ABS/ASR. Due to the lubricating capacity of this brake fluid, wear is reduced to a minimum.

The product guarantees excellent performance under cold climate conditions resulting from its low viscosity at low temperatures.

# LUBRICANTS

## ANTIFREEZE

### ANTIFREEZE BS 6580 CONCENTRATE

Blue Coolant meets the BS6580 standard recommended for all cooling systems of combustion engines and other heat transfer systems. Based on ethylene glycol and formulated according to European car manufacturers instructions, the pre-diluted cooling fluid contains additives, protecting against corrosion and foam-building. It is completely safe for rubbers, plastics, metals, aluminium and alloys and provides a permanent, guaranteed protection against freezing up to temperatures of -26°C/-36°C.

E503150-1L

E503150-5L

E503150-20LNAT

### ANTI FREEZE COOLANT BS 6580 PROTECTION -36c

E504105-1L

E504105-5L

E504105-20LNAT

Blue Coolant meets the BS6580 standard recommended for all cooling systems of combustion engines and other heat transfer systems. Based on ethylene glycol and formulated according to European car manufacturers instructions, the pre-diluted cooling fluid contains additives, protecting against corrosion and foam-building. It is completely safe for rubbers, plastics, metals, aluminium and alloys and provides a permanent, guaranteed protection against freezing up to temperatures of -26°C/-36°C.

## SPRAY LUBRICANTS

### EUROL CERAMIC GREASE SPRAY 400ML

E701123

Eurol Ball Bearing Grease with NLGI 2 consistency is especially developed for the lubrication of ball and roller bearings of motorcycles, mopeds and bicycles. It is water-repellent and offers a good resistance against oxidation. Moreover, the product has excellent sealing capabilities and a good mechanical stability. As it is highly adhesive, the grease reduces bearing wear to a minimum and protects all parts from corrosion.

# LUBRICANTS

## EUROL CHAIN LUBE SPRAY CROSS & OFF ROAD 400ML

Eurol Chain Lube Spray Cross & Off Road is a chain spray with Triple-Tech additive technology, especially developed for chains operating in dusty or wet conditions. It provides highly effective protection against wear and tear, ensuring extended and lasting protection of the sprockets and the chain.

E701314

## EUROL COPPER GREASE SPRAY 400ML

E701130

Eurol Copper Grease Spray is a multi-purpose sprayable grease with a wide temperature range that reduces wear on parts that are subjected to extreme pressure and to counter pitting, thread deformation and galling due to corrosion and chemical exposure. Eurol Copper Grease Spray is formulated with a high quality bentonite grease with solid material copper.

## EUROL PTFE SUPER LUBE SPRAY 400ML

Eurol PTFE Super Lube Spray is especially developed to reduce friction and wear. It is dirt- and moisture repellent. Squeaking and creaking noises, caused by 'Stick-slip' are prevented by Eurol PTFE Super Lube Spray. Moreover, it provides protection for cables, chains, derailleurs, gears, hinges, metals and plastics.

E701460

## EUROL MULTI-LUBE MD 50 SPRAY 400ML

E701325

Eurol Multi Lube MD 50 Spray penetrates deeply, protects metals, makes sticky parts run smoothly and makes plastics become like new. Eurol Multi Lube MD 50 Spray removes oil, grease, tar and adhesives. It prevents moisture from penetrating into ignition parts, distributor and spark plug cables.

# LUBRICANTS

## EUROL SILICONE MULTI SPRAY 400ML

E701320

Eurol Silicone Multi Spray offers a unique lubrication. It keeps chains, derailleur hinges, locks, plastics and rubbers running smoothly. It is dirt-repellent, makes rubber water-tight, prevents icing, corrosion and drying-out of rubber. The product is acid free and leaves a shiny, protective layer.

## EUROL SKALA 05 LUBE SPRAY 400ML

E701170

Eurol Skala 05 Lube Spray is a high performance lubricant for heavy duty bearings and open gears. Bitumen-free and extremely suitable for roller and plain bearings. Due to the Zn-technology developed by Eurol, this lubricant offers very good anti-corrosion and water-repellent properties.

## STOP LEAK

## EUROL RADIATOR SEALER

E802317-250ML

Eurol Radiator Sealer protects from leaks in the head gasket, heater core, radiator, heater matrix, freeze plug and water pump casing. This sealer postpones radiator repair for up to one year and can be applied in liquid cooled engines of cars, motorbikes, commercial vehicles and agricultural machinery. It can also be applied as preventive action to ensure the good condition of the cooling system. No draining or flushing of the cooling system is required.

## EUROL TRANSMISSION STOP LEAK

E802320-250ML

Eurol Transmission Stop Leak is an additive developed to swell and revitalize seals and O-rings to stop leaks in automatic transmissions where ATF is used. Eurol Transmission Stop Leak prevents further leaks in order to avoid reduced transmission oil level as well as to avoid contamination of the soil or the ground water. It does not contain solvents or solids and not only swell the seals but keeps them elastic too. Eurol Transmission Stop Leak is compatible with all mineral and synthetic transmission oils.

# LUBRICANTS

## EUROL ENGINE STOP LEAK

E802312-250ML

Eurol Stop Leak is an additive developed to swell and revitalize seals and O-rings to stop leaks in diesel, LPG and petrol engines. It is compatible with all mineral and synthetic, single- and multigrade oils. It does not contain solvents or solids and does not only swell the seals but keeps them elastic too.

## ADDITIVES

## EUROL POWER STEERING FLUSH

Eurol Power steering Flush is an oil additive that cleans dirty power steering systems which in turn will extend the life of the system. After flushing the power steering system with this additive, the steering will feel crisp and precise. Eurol Power steering Flush removes varnish and deposits without softening seals or gaskets. The debris and deposits are dissolved by the additive without the use of an aggressive solvent. Regular usage of Eurol Power steering Flush will aid in preventing sluggish steering in cold weather, steering noise, difficult steering, leakage through hardened seals and reduction of steering effectiveness.

E802319-500ML

## EUROL ENGINE FLUSH

E802310-500ML

Eurol Engine Flush is an additive developed to clean dirty engines which will extend the life of an engine. After flushing an engine both the throttle response and the acceleration will increase. It is added to the old fluid at operating temperature and is left to circulate through the engine. Engine Flush uses the old oil as a delivery mechanism where the additive gradually and thoroughly removes deposits from the engine, removing them from the engine by draining the old oil.

## EUROL TRANSMISSION FLUSH

Eurol Transmission Flush is developed to remove deposits from the cooling lines, cooler, torque converter and other transmission parts in order to achieve a clean transmission which will extend the life of a transmission. While not containing aggressive solvents, the flush effectively removes contaminants, debris and varnish while leaving the transmission unharmed. Eurol Transmission Flush is recommended for use at every transmission fluid change in 8L to 12L of transmission oil.

E802311-500ML

# LUBRICANTS

## AD BLUE EURO 4 ON - WITH SCR

E301200-5L

E301200-10L

Eurol AdBlue is a clear liquid, suitable for the treatment of exhaust gases in order to ensure that emission standards are met. By using Eurol AdBlue in the SCR-system, the NOx is converted to harmless water and nitrogen due to a chemical reaction. For proper functioning of your SCR system you must ensure that you only use high quality AdBlue. Eurol AdBlue should be stored at temperatures of between -11°C and + 30°C to ensure a shelf life of one year.

## EUROL ENGINE OIL TREATMENT

Eurol Engine Oil Treatment is an additive developed to provide a thicker and more tenacious oil film between moving engine parts. It aims to prevent metal-to-metal contact in the engine using high-tech additives which increase the oxidative stability of the engine oil, allowing the engine to run at higher temperatures. This treatment is formulated to improve engine oil efficiency by dramatically reducing friction, increasing power output, increasing fuel economy and reducing emissions.

E802315-250ML

## ATF TREAT PLUS

E802322-500ML

Eurol Engine Oil Treatment is an additive developed to provide a thicker and more tenacious film of oil between moving engine parts. It prevents metal-to-metal contact in the engine by using high-tech additives which increase the oxidative stability of the engine oil, allowing the engine to run at higher temperatures. This treatment is formulated to improve engine oil efficiency by dramatically reducing friction, increasing power output, increasing fuel economy and reducing emissions.

## CLEANERS

### EUROL BRAKE CLEANER SPRAY 500ML

E701445-CP9

Eurol Brake Cleaner Spray is a special spray for a rapid and efficient degreasing and cleaning of brakes, brake linings, brake discs, engine parts, contacts points, spark plugs, chains and metals. Plastics should not be cleaned with this product.

# LUBRICANTS

## EUROL DEGREASER HF BIO

E302140-5L

Eurol Degreaser Bio HF has been formulated from strong acting emulsifiers and solvents with a low evaporation loss. Eurol Degreaser Bio HF is recommended for a rapid conversion of new cars, cleaning of motor parts, filters, machines, engine rooms, tanks and floors. Furthermore, it can also be used for cleaning greasy floors and walls. It will not leave a greasy layer after flushing with water. As the product has a neutral pH-value, it can be used on all surfaces. Eurol Degreaser Bio HF evaporates relatively slowly and is biodegradable.

## EUROL BRAKE CLEANER

E302520-5LBLIK

Eurol Brake Cleaner Special is a chlorine-free, fast drying degreaser for a rapid and efficient degreasing and cleaning of brake drums, brake shoes, brake discs, clutch parts, engine blocks, etc. It also prevents brakes from squeaking. Besides the cleaning of brake parts, Eurol Brake Cleaner Special can also be used for a fast and uncomplicated cleaning of electrical and magnetic contacts (interruptor and spark plugs) and other parts. Eurol Brake Cleaner Special effortlessly removes grease, silicones, asbestos and oil from brake discs and engine parts. Plastics should not be cleaned with this product.

## EUROL CONTACT CLEANER SPRAY 400ML

E701465

Eurol Contact Cleaner Spray is a powerful solvent cleaner for cleaning and degreasing of electrical components and other precision metal parts like sensors, relays and print boards. The spray is composed of inert and pure solvents so it has no affect on plastics and metals.

## EUROL EGR CLEANER SPRAY 400ML

E701120

Eurol EGR Cleaner is developed for the removal of excess carbon deposits from the inside of EGR valves. These are installed in vehicles to reduce NOx emissions. If the EGR valve is stuck in the closed position, the engine will have excessive NOx-emissions and will automatically reduce power. The aerosol can be used for cleaning the EGR valve to smooth a rough idle or hesitant acceleration and to reduce knocking.

# LUBRICANTS

## EUROL PENETRATING OIL SPRAY 400ML

E701300

Eurol Penetrating Oil Spray quickly loosens rusted parts, thanks to the deep penetrating properties. It contains molybdenum disulfide for lubrication and active inhibitors to resist corrosion.

## EUROL DIESEL INJECTION CLEANER

Eurol Diesel Injection Cleaner consists of concentrated deposit control components that dissolve and remove harmful deposits from the fuel injectors, including carbon, varnish and gum deposits. It is formulated to unclog dirty fuel injectors and restore overall engine performance.

Additional benefits include the revival of lost power, improved acceleration, the elimination of rough starts and uneven idling as well as a reduction of emissions.

E802492-250ML

## EUROL DIESEL DPF CLEANER PLUS

E802498-250ML

Eurol DPF Cleaner Plus enables the Diesel Particulate Filter (DPF) to regenerate more easily when it has a higher-than-usual soot loading. DPFs clog up due to the quality of the fuel and engine oil, driving style or urban driving. A DPF-equipped vehicle is programmed to regenerate the DPF as soon as the exhaust gets hot enough to reach the DPF regeneration temperature, approximately 600°C. Eurol DPF Cleaner Plus uses a fuel-borne catalyst to lower this temperature to 400°C, making it easier for the carbon particles to oxidize. This will reduce exhaust gas backpressure, allow the turbo to spool up faster and subsequently increase fuel economy. Eurol DPF Cleaner Plus is recommended if the DPF warning light comes on, if not the DPF might have to be replaced or removed to be fully cleaned, at high cost. Add 250ml of Eurol DPF Cleaner Plus for every 35 – 65L of diesel. Once added take the vehicle for a longer trip (>50km) while frequently keeping the engine above 2.500 to 3.000 RPM for 30 seconds. Eurol DPF Cleaner Plus is not suitable if your vehicle is equipped with a CRT (Continuously Regenerating Trap) system.

# LUBRICANTS

## CONSUMABLES

### EUROL SCREEN WASH CONCENTRATE LEMON

Eurol Screen wash Lemon prevents the windshield washer system from freezing and is an excellent cleaner for dirty windshield. This winter formulation is safe for polycarbonate windshields and dries without leaving smeary stripes. Moreover, the product is non-corrosive, not harmful and has a flash point of  $>23^{\circ}\text{C}$  so it can be applied safely.

E502260-500ML

E502260-1L

E502260-5LZW

### EUROL BATTERY ACID

1L: SACEUR0067  
(E301300)

Battery Acid contains 37% sulfuric acid and is suitable for every brand of battery. For topping-up batteries always use demineralized water. Lead batteries are filled with sulfuric acid, density 1.28 kg/l.

### EUROL DEMI WATER DEMINERALISD

Demi Water is demineralized water from which all salts and other impurities have been removed. Because of this, our demi water will not form scale deposits so blockages will be avoided and optimal heat-transfer can take place. It is used in several production processes as well as in steam-irons, batteries, air-humidifiers and in laboratories.

E301190-1L

E301190-5L

### EUROL CAR & TRUCK WASH CONCENTRATE

E602181-20L

Eurol Car & Truck Wash is a safe, concentrated detergent. Eurol Car & Truck Wash can be used for cleaning trucks and passenger cars, buses and trains. It is extremely suitable for high-pressure cleaners, foam tanks and foam-lances. Eurol Car & Truck Wash has no aggressive effect on the skin and is biodegradable. NB Store above  $0^{\circ}\text{C}$ . It is recommended to wear safety goggles when using Eurol Car & Truck Wash.

# LUBRICANTS

## EUROL CARWASH CONCENTRATE WASH & SHINE

Eurol Carwash is a highly concentrated, synthetic shampoo. It is safe to use on lacquer, rubber, plastic and chrome of cars, motorcycles and boats. Eurol Carwash is excellent for hand applications as well as for car washes and high-pressure cleaners. Due to the strong cleaning capability even heavily soiled surfaces get a beautiful shine with Eurol Carwash without the need for a chamois after-treatment.

E602100-500ML

## EUROL COCKPIT CLEANER SPRAY SILICON FREE 400ML

E701485

Eurol Cockpit Cleaner Spray cleans and protects the dashboard and other plastic parts in the vehicles. This spray is silicone-free and has excellent cleaning and dirt repelling properties.

## EUROL HAND CLEANER WHITESTAR

Eurol Hand Cleaner Whitestar is a solvent-free high quality hand cleaner with excellent skin reconditioning properties. Due to the pH-neutral character of the product it will prevent skin irritation. Eurol Hand Cleaner Whitestar is made with Jojoba esters, Aloë Vera extracts, Lanoline derivates and an environment friendly abrasive based on polymers. Eurol Hand Cleaner Whitestar is dermatologically tested and biodegradable. It is suitable for the removal of lubricants, brake fluids, fuels and greases. Store above 0°C

E601440-600ML

E601440-4.5L

# LUBRICANTS

## EUROL SURFACE CLEANER FLOOR CLEANER

Eurol Surface Cleaner is a safe, concentrated detergent. Eurol Surface Cleaner is solvent-free and contains soaps for the effortless cleaning of a wide spectrum of pollutants. Eurol Surface Cleaner has no aggressive effect on the skin. Store above 0°C

E602190-20LNAT

## EUROL HAND CLEANER YELLOW STAR KIT W/DISPENSER

KIT: E600600-3.8LT

Eurol Hand Cleaner Yellow Star is a dermatologically tested hand cleaner for heavily soiled hands. It is particularly suitable for use in garages, workshops and in industrial settings – easily removing heavy pollutants like grease, oil, rust, paint and ink. This hand cleaner not only has a finer abrasive which is less harsh on the skin, it also contains Aloe Vera and Jojoba Oil to prevent hands from drying out. Because of the low viscosity of this gel-like product, it is easily pumpable and also effortlessly lathers.

## EUROL HAND CLEANER YELLOW STAR REFILL

Refer above.

# Why Purchase Our Parts?

## ■ QUALITY

At SAC, quality is non-negotiable. We understand that to build a sustainable company that will carry into the next generation, the quality of the product must survive long after the pain of the purchase has faded away. Which is why developing lasting relationships with both local and global industry experts who can guarantee compatibility and availability of quality replacement parts is so important. Examples of such partnerships are the ones SAC has forged with Mansons in India as well as Diesel Technik (DT) in Germany; one of the largest suppliers of automotive parts and accessories in the world and a company that shares the same values regarding the importance of quality. We are proud to be the only DT Premium Partner in South Africa and one of only a handful in the world. All DT parts carry a 24-month warranty.

## ■ SERVICE

Our company is built on a philosophy of service excellence. This approach rings true for all levels of employees, including our management team. At SAC we literally eat, dream, sleep and breathe customer service. Everything we do is geared to ensure that our customers get their parts in the shortest possible time. You are welcome to put us to the test!

## ■ AVAILABILITY

SAC's objective is to stock a complete range of parts suitable for all leading European and Japanese heavy and medium commercial vehicles as well as batteries and lubricants for every application. That is why all 19 branches carry a wide range of stock on site. Stock levels are augmented by next-day-deliveries from our main Warehouse to the branches as well as a countrywide network of service providers to assist in the event of remote breakdowns.

## ■ COMPETITIVE PRICING

SAC has a robust procurement department that works non-stop to ensure that parts are sourced at best quality and price. They also receive regular feedback from the sales teams at the branches regarding parts that are not priced competitively. This information is passed on to our suppliers to ensure that our pricing continuously improves to benefit our customers without compromising on quality.

# FAQs

## **Where are the branches located?**

We have 19 branches nationally, all conveniently located along the main routes of South Africa: Polokwane, Mbombela (Nelspruit), Durban, Middelburg, Pomona, Boksburg, Vereeniging, Alrode, Centurion, Klerksdorp, Welkom, Bloemfontein, Gqeberha (Port Elizabeth), Cape Town, Krugersdorp, Paarl, East London, Richards Bay & Newcastle.

## **What are the business hours?**

We are a 24/7 operation. Most of our branches are open to the public between 7h00 and 16h45 Mondays to Fridays and between 8h00 and 13h00 on Saturdays, but it is advisable to confirm with your nearest branch as times may vary. Outside of normal business hours we have teams on stand-by to assist in emergencies and further support is provided on a call-out basis as and when necessary.

## **Are replacement parts manufactured to OE specifications?**

Both our local and overseas suppliers are sourced specifically with this in mind. Our parts also undergo rigorous testing and are certified accordingly.

## **Does SAC Commercial Parts provide any technical services or support?**

Our in-house Brand Managers have vast industry experience and can address all your technical queries. We also have a state-of-the-art workshop in Centurion that services and repairs all large and medium European and Japanese commercial vehicles. We further engage in engineering and reconditioning, manufacturing, Dynamometer diagnostics as well as Injector refurbishment and testing.

## **What is the company's delivery policy?**

We can and do accommodate our customers in this regard if it is economically feasible. In certain instances, we might arrange alternative delivery methods and timelines if the delivery address is remote or inaccessible.

## **Do parts come with a Guarantee?**

Yes. Parts are tested internationally, but are guaranteed locally, for up to 24 months if you buy a battery or a part supplied by Diesel Technic, our long-standing distribution partner and a leading global supplier of quality replacement parts.

# DISCLAIMER

Product availability is subject to change without notice. Whilst every effort is made to provide the most accurate, up-to-date product information, occasionally technical or typographical inaccuracies could occur. In certain instances, product images are for illustration purposes only and may possibly not be an exact representation of a product code.

SAC Commercial Parts Group does not accept responsibility or liability for any losses or damages of any kind arising from decisions made based on information contained here within. The onus is on the persons receiving the information to make their own determination as to a part's suitability prior to purchase.
