

ISUZU PARTS CATALOGUE

2nd Edition

www.sactrucks.co.za

SAC Commercial Parts supplies affordable, quality replacement parts for all leading European and Japanese heavy and medium commercial vehicles as well as aftermarket parts and accessories for trailers, buses, transporters and light commercial vehicles.

SAC is a ONE-STOP-SHOP and therefore our product portfolio further includes a comprehensive selection of Lubricants and Automotive Fluids of unparalleled quality. For the convenience of our customers we also import a superior range of OEM authorised 12-Volt maintenance-free batteries ideally suited to keep up with the increased energy demands of the electronics-loaded vehicles of today.

Quality, compatibility and availability of products are paramount to our procurement decision-making process and nowhere is this more evident than with our range of TRAILER parts and components as contained here within. Should you require additional information contact your nearest branch or visit www.sactrucks.co.za to enquire. Prices are available on request, Ts and Cs apply.

Why Purchase Our Parts?

■ QUALITY

At SAC, quality is non-negotiable. We understand that to build a sustainable company that will carry into the next generation, the quality of the product must survive long after the pain of the purchase has faded away. Which is why developing lasting relationships with both local and global industry experts who can guarantee compatibility and availability of quality replacement parts is so important. Examples of such partnerships are the ones SAC has forged with Mansons in India as well as Diesel Technik (DT) in Germany; one of the largest suppliers of automotive parts and accessories in the world and a company that shares the same values regarding the importance of quality. We are proud to be the only DT Premium Partner in South Africa and one of only a handful in the world. All DT parts carry a 24-month warranty.

■ SERVICE

Our company is built on a philosophy of service excellence. This approach rings true for all levels of employees, including our management team. At SAC we literally eat, dream, sleep and breathe customer service. Everything we do is geared to ensure that our customers get their parts in the shortest possible time. You are welcome to put us to the test!

■ AVAILABILITY

SAC's objective is to stock a complete range of parts suitable for all leading European and Japanese heavy and medium commercial vehicles as well as batteries and lubricants for every application. That is why all 18 branches carry a wide range of stock on site. Stock levels are augmented by next-day-deliveries from our main Warehouse to the branches as well as a countrywide network of service providers to assist in the event of remote breakdowns.

■ COMPETITIVE PRICING

SAC has a robust procurement department that works non-stop to ensure that parts are sourced at best quality and price. They also receive regular feedback from the sales teams at the branches regarding parts that are not priced competitively. This information is passed on to our suppliers to ensure that our pricing continuously improves to benefit our customers without compromising on quality.

Please visit **www.sactrucks.co.za** to learn more about us.

FAQs

Where are the branches located?

We have 18 branches nationally, all conveniently located along the main routes of South Africa: Polokwane, Mbombela (Nelspruit), Durban, Middelburg, Pomona, Boksburg, Vereeniging, Alrode, Centurion, Klerksdorp, Welkom, Bloemfontein, Gqeberha (Port Elizabeth), Cape Town, Krugersdorp, Paarl, East London and Richards Bay.

What are the business hours?

We are a 24/7 operation. Most of our branches are open to the public between 7h00 and 16h45 Mondays to Fridays and between 8h00 and 13h00 on Saturdays, but it is advisable to confirm with your nearest branch as times may vary. Outside of normal business hours we have teams on stand-by to assist in emergencies and further support is provided on a call-out basis as and when necessary.

Are replacement parts manufactured to OE specifications?

Both our local and overseas suppliers are sourced specifically with this in mind. Our parts also undergo rigorous testing and are certified accordingly.

Does SAC Commercial Parts provide any technical services or support?

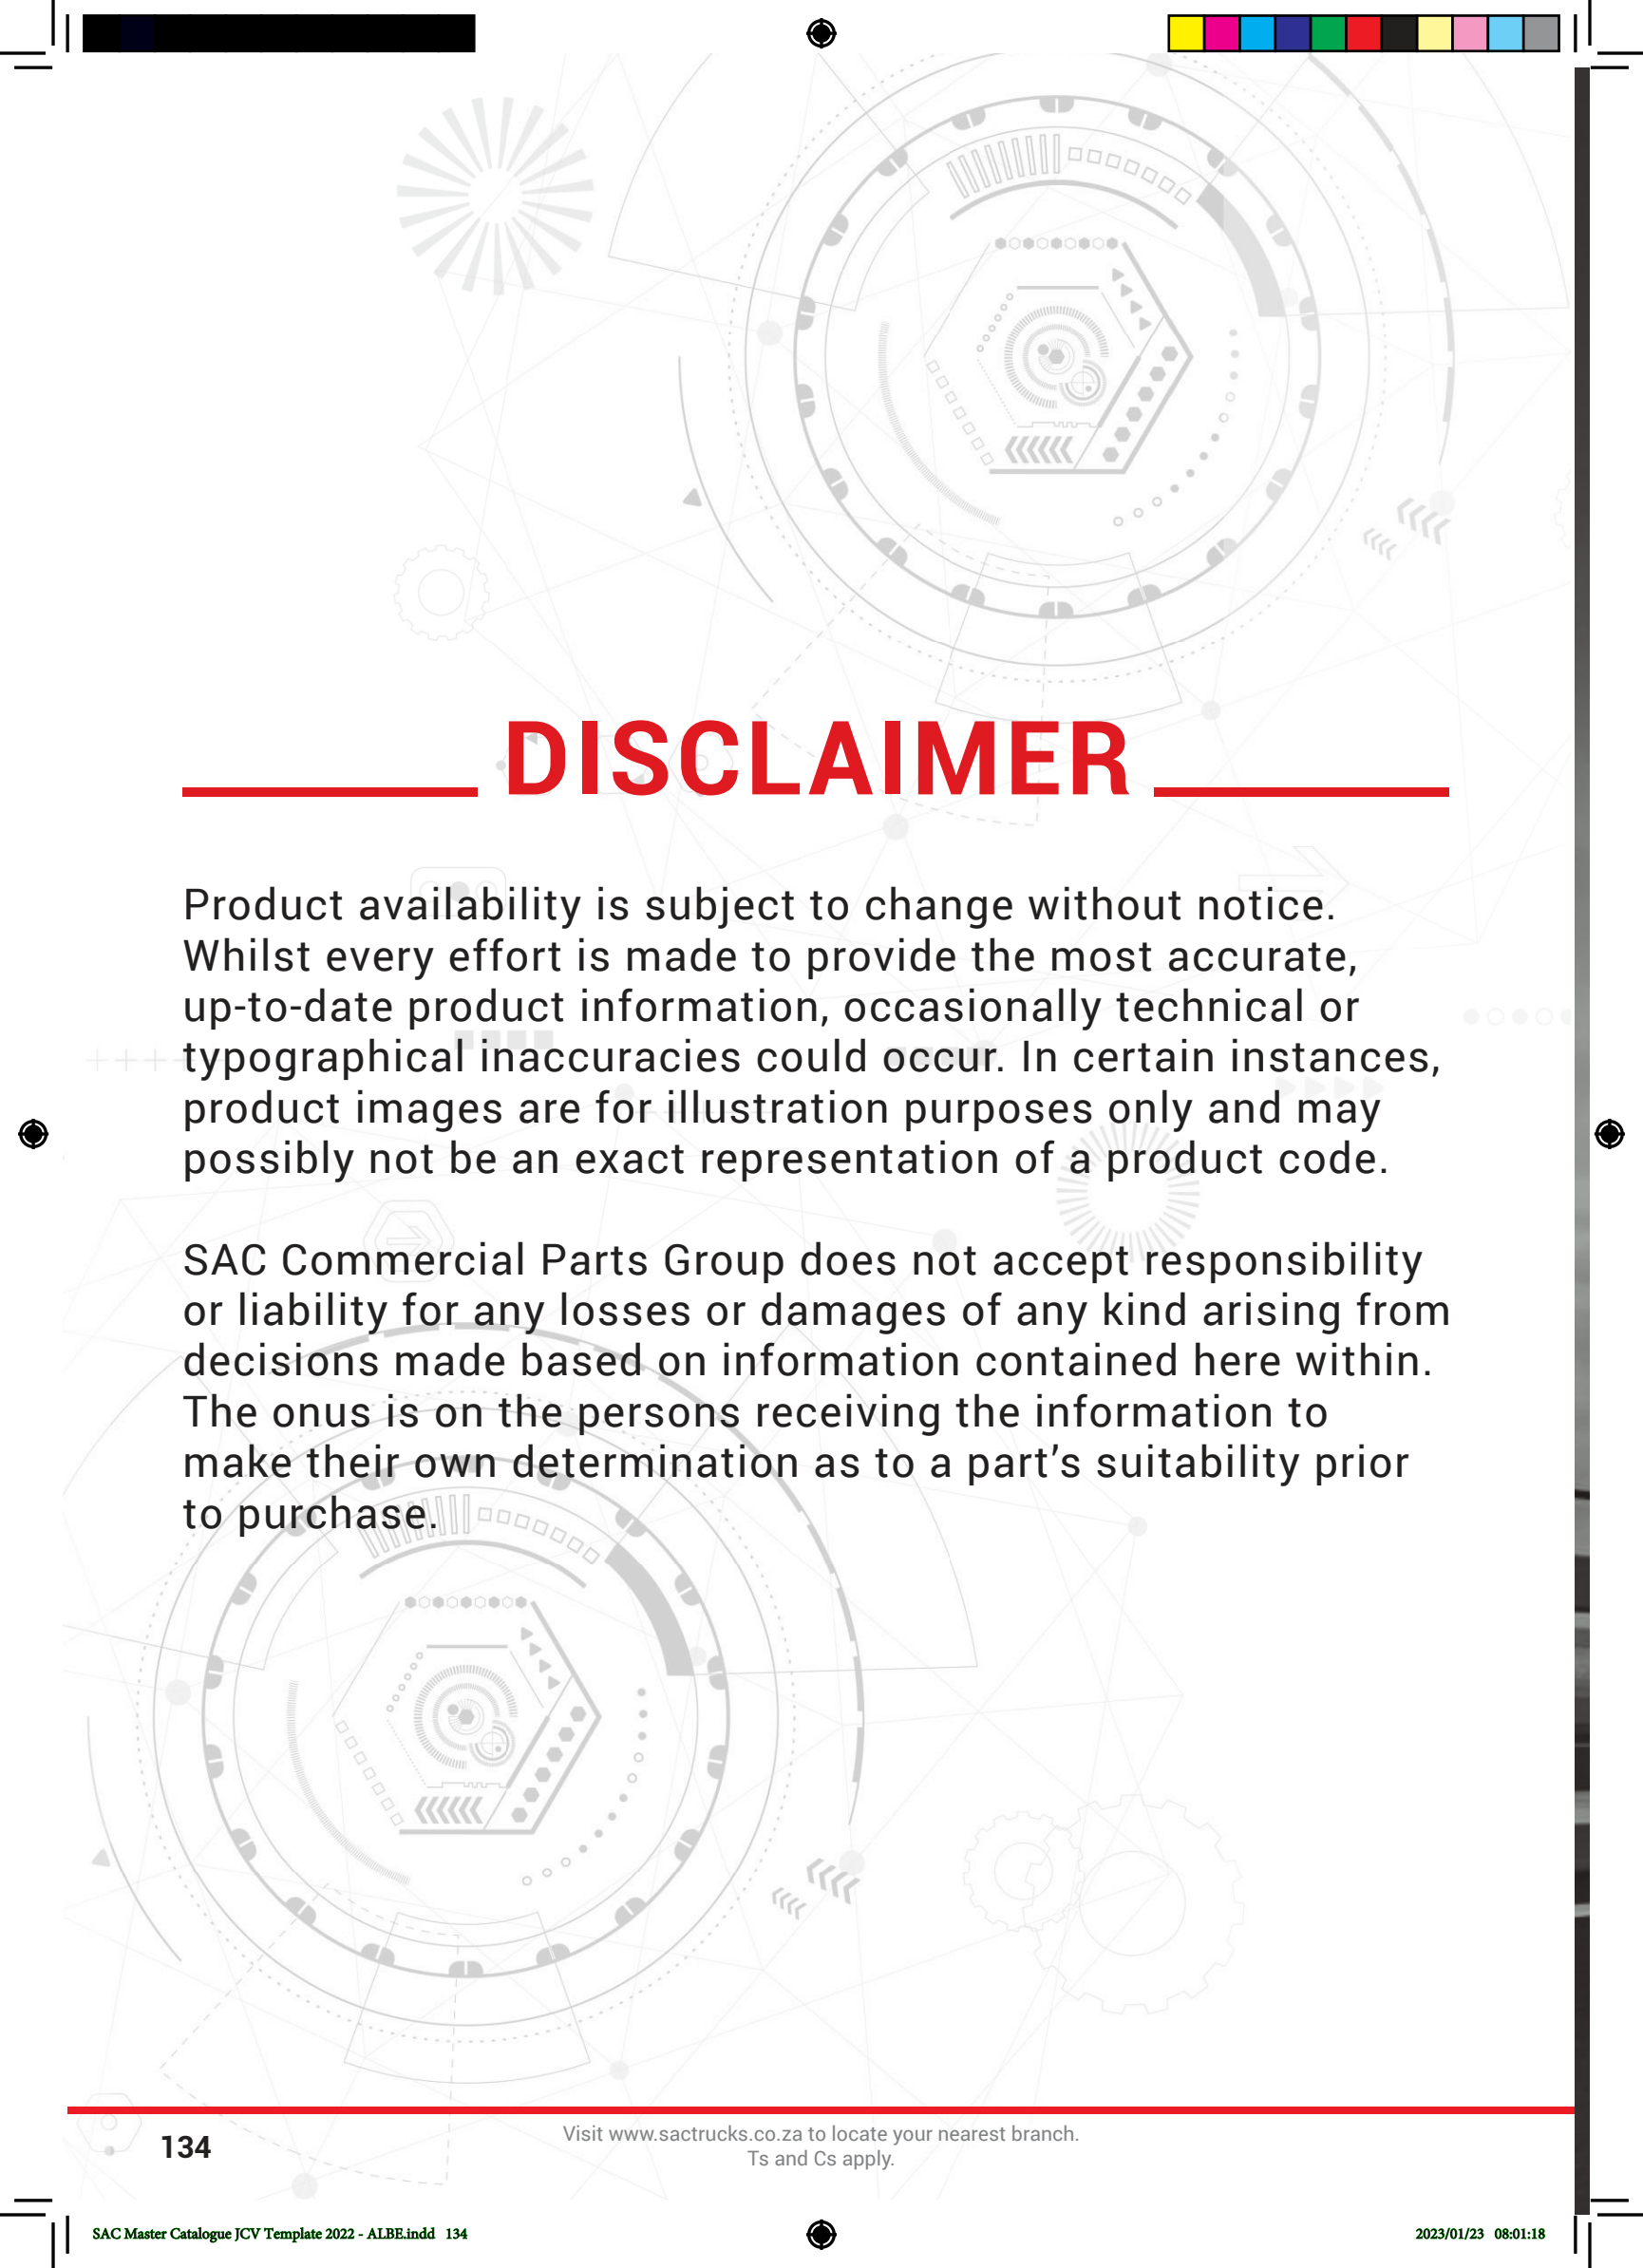

Our in-house Brand Managers have vast industry experience and can address all your technical queries. We also have a state-of-the-art workshop in Centurion that services and repairs all large and medium European and Japanese commercial vehicles. We further engage in engineering and reconditioning, manufacturing, Dynamometer diagnostics as well as Injector refurbishment and testing.

What is the company's delivery policy?

We can and do accommodate our customers in this regard if it is economically feasible. In certain instances, we might arrange alternative delivery methods and timelines if the delivery address is remote or inaccessible.

Do parts come with a Guarantee?

Yes. Parts are tested internationally, but are guaranteed locally, for up to 24 months if you buy a Q+ battery or a part supplied by Diesel Technic, our long-standing distribution partner and a leading global supplier of quality replacement parts.

DISCLAIMER

Product availability is subject to change without notice. Whilst every effort is made to provide the most accurate, up-to-date product information, occasionally technical or typographical inaccuracies could occur. In certain instances, product images are for illustration purposes only and may possibly not be an exact representation of a product code.

SAC Commercial Parts Group does not accept responsibility or liability for any losses or damages of any kind arising from decisions made based on information contained here within. The onus is on the persons receiving the information to make their own determination as to a part's suitability prior to purchase.
